

```
<button onClick="First()">Direct</button>
```

```
function First(){
arr=[cat,dog,donkey,rooster];
document.getElementById("demo").innerHTML="";
arr.forEach(Go);
}

function Go(item,index)
{
document.getElementById("demo").innerHTML+=
    index+"."+item.name+
    " says "+item.Say()+"<br>";
}
```

```
<button onClick="Second()">Shifted</button>
```

```
function Second(){
    arr=[cat,dog,donkey,rooster];
    document.getElementById("demo").innerHTML = "";
    var k=0;
    arr.forEach(Go2);
}

function Go2(item, index, arr) {
    var k=index+1<arr.length?(index+1):0;
    document.getElementById("demo").innerHTML +=
        item.name + " says " + arr[k].Say() + "<br>";
}
```

Use the forEach operator to iterate through an array
